## Additional notes

- This vehicle is Non-ELS.
- Add extention ‘+livery’ (without commas) for the vehicle to use the multi-livery function in-game.
- StreetHawk lightbar has working rotators.
- The model has been left unlocked for users to encourage them to take up modding and while making use of the available resources, achieve the exact set-up they want to, with this specific model. If you want to modify the content of the archive, you are free to do so, provided that you credit appropriately in your package’s readme.
