Release

Although some would say this is merely a convert, a lot of time has gone into making this mod. I have locked the archive to protect my work. Although I take no credit for creating the base model, I do take credit for editing and converting this model to GTA IV. I hope you respect this and do not claim this or parts of this mod as your work, nor use this or parts of this mod in your own mods.

Thank you,

- Vertelvis
